

## Restaurant Magic Code of Standards and Ethics

At your restaurant, you get a professional magician/entertainer who:

- Dresses sharply, with clean hands at all times.
- Arrives at least 1/2 hour early.
- Treats everyone with a smile and top-notch hospitality.
- NEVER solicits tips either verbally or by use of a sign, pin, or ploy.
- *Is foremost an AMBASSADOR for your establishment. Anything that needs addressing (dissatisfaction, a spill, wrong food, empty drinks, etc.) will be handled with graciousness and a servant attitude FIRST and foremost, before any magic is performed.*
- Helps to market your restaurant by asking for online reviews from the most satisfied clients.
- NEVER consumes alcohol during the event (This is the epitome of unprofessionalism and is completely taboo for a magician.)
- Uses only age-appropriate humor and illusions, never crossing into anything 'R' rated.
- Brings the magic to diners with tact and style, never interrupting conversations or forcing magic on those uninterested. Starts the conversation casually, asking diners if all is to their satisfaction, THEN offering brief entertainment and amazement.
- Performs special illusions tailored for guests of honor if you so choose, often leaving them with an unforgettable (impossible) souvenir.
- Amazes your guests and has them talking about the magic and your venue for weeks to come.

As a reminder, I am TIPS certified, and Maryland State Police and FBI background checked for your peace of mind.

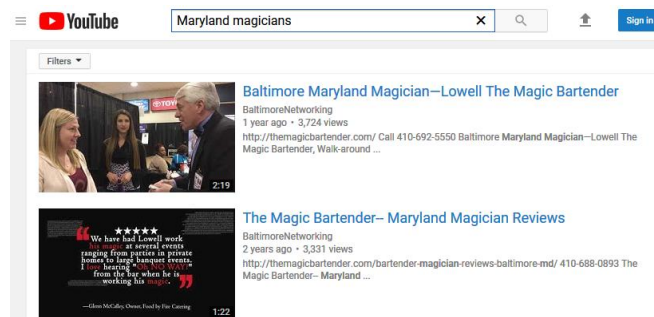

Please call, text or email with your questions. Looking forward to making your client experience magical...
