

Why Have a Magician at Your Wedding Reception?

Having a **professional magician** at your reception adds a unique and memorable entertainment experience for your guests. Read what clients are saying at MagicianReviews.com

Never a Dull Moment

It's a great way to *entertain your guests during cocktail hour*, while you're posing for photographs. Great magic delivers a 'WOW Factor,' adding laughter & amazement to the event.

Not Everyone Dances

Elderly guests, younger guests, shy guests, guests with health conditions-- if you have your magician stay for the whole event, smiles and laughter will come to *everyone* throughout the night, and they won't feel left out. Even those who sit down at a table as strangers will become 'community' as they share amazing experiences.

Guests Will Thank You

Have guests talking for weeks, months and years about how fun and amazing your reception was. The bride and groom will enjoy a special illusion that will leave them with an 'impossible' keepsake souvenir. You can honor special guests with magical souvenirs too. They will thank you!

Your reception will be the FUN one everyone remembers!

Bonus Idea: Make your Bachelorette Party or Rehearsal Dinner more special and awesome by having The Magic Bartender entertain!

★★★★★
"Lowell is **FANTASTIC!** [He] went above and beyond to ensure that our bride-to-be had a blast. He acted as our private mixologist, & did magic the whole time. He was the perfect pick for an **upscale bachelorette party**. I cannot recommend him enough."
